Experience

Systems Developer Intern

Capaciti • Cape Town, WC

08/2024 - Present

I work as versatile software professional skilled in both front-end (client-side) and back-end (server-side) development. I am both capable of building complete web applications from scratch, managing all aspects of the development process, from designing user interfaces to managing databases and server infrastructure. I work with various technology and programming languages such as Java and Python.

Customer Service Representative

EXL • Cape Town, WC

10/2023 - 09/2024

I worked as an agent getting familiar with the systems and certain applications learning how to troubleshoot applications such as Avaya & mainframe, and passwords resetting, gathering information to file a ticket clear.
